### Past The Peak

To a country which has had more than its share of depressing then it is perfectly obvious that news in the past six months the report of Robert C. Goodwin, director of the United States Employment Service, is pleasant reading. Mr. Goodwin finds that, despite the wave of strikes which has been badly he seemed to be doing in his recent hampering reconversion and curtailing industrial operations, the peak of postwar unemployment has already been passed.

### The Parent Problem By Garry C. Myers, Ph. D.

ILL EFFECTS OF HOUSING SHORTAGE

In war-plant areas, during the war, ever so many families had to live in miserably crowded quarters. This caused many problems for parents and proved serious handicaps to their children.

ends muss and fuss!

Bring laboratory sanitation to your kitchen refuse container. Deposit refuse into paper bag which sets into a wire basket and is held open by sanitary tray grippers. When filled, lift out with sliding handles on basket and carry to disposal. No messy parts to scour out!

Circulating air through ventilated container keeps bag dry and arrests fermentation. Deodorizing agent in lid, lasting 3 to 4 months per filling prevents refuse odors from escaping; thereby necessitating disposal only when bag is completely filled.

Strongly built and durably finished, the unit also features non-tippable, foot pedal opening and a pull-out handle. It matches the finest range or refrigerator in appearance. Generous supply of deodorant and 20 lb. moisture-proof bags included. Additional supply always available - at very low cost.

Top: Wire basket and open Lottom of cabinet allow free circulation of air on all sides, top and bottom of refuse. Center: Remove filled refuse bag easily and clean-ly by means of sliding han-dles on removable wire basket — no muss to touch.

Bottom: Deodorizing agent
in lid unit lasts 3 to 4
months per fill — prevents
refuse odors escaping. Note
how refuse bag is held open.

The nation's standard of living can be raised only by all of us producing more. We cannot pull ourselves up by our bootstraps.

Shall We Sell?

Should houseowners who have a chance to double their money on their present house now sell? My answer is that if it is a house which you own and do not occupy, but from which you collect renes, sell it. This will give you a good profit and you will be rendering a service by helping to break this present crazy market. Monterey Plans

For Celebration

Of Centennial MONTEREY, Calif. June 21.

The trouble is, the town looks terific but the townspeople look ter-Or rather the men look terrible.

Beards, you know. Maybe it's better to start at the beginning

This is the first territorial capial of California-once a segment of hese United States comparable to the acreage involved in the Louisiana purchase and an area which has flown about six flags. It was a hundred years ago this summer that the Stars and Stripes first were officially hoisted from the lagpole in these parts.

After that came the gold rush, he forty-niners and all of those other historic events that people like James Cagney and similar citizens made movies of a century

The point of course is that if the American flag hadn't been raised here at that time, some other stance) would have accumulated all the benefits accruing from ownership of California and several ad-

acent states. And then, being divided that way, we wouldn't have had to wait for Europe to start its war, but would have had so many borderline troubles in this country that we would have started shooting over here . . . horrible thought, isn't it?

Postwar Celebration Anyhow, in celebration of the fact that the American flag was raised here in Monterey back in 1846, the local inhabitants are pitching a party on July 4-5-6 and 7. It's really just one of many postwar celebrations which are breaking out like a rash over the western country, but it is one of the most im-

portant. For one thing, it makes the anniversary of the acquisition of more han six hundred thousand square miles and some seven states for Uncle Sam. And it was territory which Russia, China, England, Argentina and Mexico had laid claim o, at one time or another.

In fact, when Commodore John Drake Sloat sailed the warship 'Savannah" into Monterey port, he was only two jumps ahead of the British Man-of-War "Collingwood" which was inbound from Mexico on the same business.

It had been a race all the way from Mazatlan, and when British Admiral Seymour rounded the Point of Pines, sailed into Monterey bay and saw the Stars and Stripes floating from the custom house pole, he took one look at all the cannon aimed toward his vessel and is said o have originated a somewhat fa-

"Too little," he stormed as he stomped the deck of his one ship, "and too late"!

At least that's what they claim got the country, that's all that matters and that's what Monterey is fixing to celebrate.

Beautifying City They're doing quite a job of beautifying the city, too. All the main streets and sidewalks are being painted gold in memory of the gold rush. Cypress trees are being lifted from the Del Monte forest to line those same streets, and from them garlands of golden boughs are be-

ing hung. All Neon and other signs which hang in front of the business houses are being taken down, and the store fronts are being painted in harmony with a decoration scheme outlined by artists and a world-famous decorator. The effect, obviously, is

But the appearance of the people

To keep reminding the tourists and other transients that a big celebration is upcoming in these parts. the Monterey males have ceased shaving. That isn't exactly new as a publicity stunt, but never have you seen beards more unanimous! They're everywhere. At first the

women raised the dickens about the men raising whiskers, and there was plenty trouble. But then the word got around among the feminine folk that the prizes included jewelry and nylons, as well as radios and other stuff, for merely cultivating the best crop of alfalfa on hubb's chin That did it . . .

The town, as was mentioned before, looks pretty terrific but, by the time the celebration arrives, the very sight of the townspeople will give you nightmares for a week. If the commodore had seen all these beards around the bay a hundred years ago, he wouldn't even

### **Camp Meetings** To Be Continued

> Grade inspections were made last year on a total of 253,317,000 pounds of fruits and vegetables for processing. This compares with 382,855,000 pounds handled by trained inspectors during the previous year when growing conditions were more favorable. New state inspection records were established in 1945 for peas, lima beans, snap beans and plums.

Although the 1945 Pennsylvania commercial apple crop was the smallest in 25 years apple inspections led all other fruits in total poundage, 44,156,000. This was only about one-third of the 137,000,000 pounds handled at processing plants in the previous year, it was said.

Congress was also told that Gen. George C. Marshall has proposed "integration" of Chinese regular and communist armies into one group, and that their present combined total of more than 250 divisions be reduced to 30.

The information was supplied by Secretary of War Robert Patterson and acting Secretary of State Dean Acheson, who testified before the house foreign affairs committee in favor of an administration sponsored bill permitting the transfer of war materials to the Chinese re-

In disclosing the communist training program, Acheson said:

"The communist leaders have asked. and Gen. TIGERS-YANKEES COMMENCE SERIES

NEW YORK, June 21,-(INS)-Another one of those crucial series gets underway at Ebbets field tonight when the Brooklyn Dodgers tangle with the St. Louis Cardinals

The Red Birds will have to sweep the series to erase Brooklyn's lead of a game and a half. Both teams are ready for the test, especially the Cards, who have won four straight from Boston.

Tigers Vs. Yanks

Another important series starts Detroit today in Detroit. The Tigers getting good pitching again, trail the sec- St. Louis ond-place Yankees by only three Chicago games and will be out to make Philadelphia things hot for the New Yorkers.

Yesterday, the Tigers showed strength both on the mound and at bat. Dizzy Trout turned in a seven-hitter in beating the Athletics 9 to 2.

Boston's lead over New York in the junior circuit dwindled to 615 games when the Red Sox lost to the St. Louis Browns, 2 to 0, for their seventh setback in their last eight starts in the west.

# Asks Extension Of Provisions **Under SEC Act**

Securities, Exchange Chairman Wants Protection For Larger Corporations

PHILADELPHIA, June 21.—(INS) -Ganson Purcell, chairman of the Securities and Exchange Commission, announced Thursday that he has filed a report to congress recommending an extension of the protective provisions of the SEC act to the nation's large unregistered cor-

The amendment to the 1934 statute would apply to the firms in that category having at least three million dollars in assets and at least 300 security holders. It would bind these companies to the reporting and related requirements of sections 12-13-14 and 16 of the SEC

Among the corporations which would be affected by the amendment are the Aluminum Company of America, with \$474 million assets: the American Cyanamid company, 8139 million; the Great Atlantic & Pacific Tea company of America. \$228 million; the Glen Alden Coal company, \$104 million: the New Jersey Zinc company, \$89 million; the Singer Manufacturing company \$225, and the Weyerhaeuser Timbe

company, \$164 million. Purcell said that the new provisions would mainly affect some 1000 companies which do not file reports complying with the commission requests. Such reports, he said, would not load the firms with "any significant accounting burdens"

The SEC chairman pointed out that the only provisions of the SEC act now applicable to unregistered securities are those which "outlaw fraudulent and manipulative prac-

Purcell said, however, that the preventive measures affected by the reporting requirements would pro-

vide better protection to the inves-

"A commission survey shows," h explained in a letter of transmittal to congress, "that these unregistered best inadequate and

"Financial statements of the issuers of such securities are bare and uninformative." he added. "They lack much of the information needed for an informal appraisal of the

"The importance of requiring such information is considerably enanced by current and prospective conditions in the business world.

"The manner in which some corporate insiders have taken advantage of their private knowledge during the war years illustrates what may be expected in the years to

"Insiders having advance information have frequently been enabled to exploit their advantage to buy up publicly held unregistered se-

curities at depressed prices. "This and similar patterns of fraud recur again and again in the files of the commission.

The SEC chairman said that the proposed amendment was a further step in fulfillment of the SEC's obligations to congress to protect all the investors of America.

DENVER-(INS)-A majority of American parents declare "I didn't raise my son to be a politician." but nearly an equal proportion would like to have a lawyer in the family. reports the National Opinion Reearch Center of the University of Denver, on the basis of coast-tocoast cross section interviews.
